Subject Index

Acid sites
Ortho-selective alkene alkylation of arylamines via acid catalysis 117

Acid sites
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293

Acid sites
Toluene disproportionation reaction over modified HY and LaHY catalysts 91

Adsorption
Optimization of the selective semi-hydrogenation of phenylacetylene with supported palladium systems 375

Aldol condensation
Reaction of propionic acid with methylal over vanadium–silicon–phosphorus oxide 365

Alkali promotion
X-ray photoelectron spectroscopic study of the electronic state of palladium in alkali metal doped Pd/SiO_2 solids 333

Aluminium oxide
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293

Arylamine alkylation
Ortho-selective alkene alkylation of arylamines via acid catalysis 117

Barium hydroxide
Oxidative coupling of methane in molten barium hydroxide at 800°C 67

Basicity
Oxidative coupling of methane in molten barium hydroxide at 800°C 67

Batch reactors
Measurement of gas–liquid mass transfer in multi-phase reactors. A Review 1

Benzene
Toluene disproportionation reaction over modified HY and LaHY catalysts 91

Benzene hydrogenation
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37

Bimetallic catalysts
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293

Bubble column reactors
Measurement of gas–liquid mass transfer in multi-phase reactors. A Review 1

Caesium oxide/silica
Effect of carbon tetrachloride as a feedstream additive in the oxidative coupling of methane on alkali oxide/SiO_2 catalysts 129

Carbon dioxide
Copper surface area and activity in $CO/H_2/CO_2$ of $Cu/ZnO/Al_2O_3$ methanol synthesis catalysts 165

Carbon monoxide
Copper surface area and activity in $CO/H_2/CO_2$ of $Cu/ZnO/Al_2O_3$ methanol synthesis catalysts 165

Carbon monoxide hydrogenation
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. VI. Study of the state of components in $(Pd + Zr)/SiO_2$ 51

Carbon tetrachloride
Effect of carbon tetrachloride as a feedstream additive in the oxidative coupling of methane on alkali oxide/SiO_2 catalysts 129

Catalyst characterization (adsorption, desorption)
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293

Catalyst characterization (adsorption, microscopy, TPD, XRD, XPS)
Titania-modified hydrodesulphurization catalysts. I. Effect of preparation techniques on morphology and properties of TiO_2–Al_2O_3 carrier 305

Catalyst characterization (BET, XRD)
Gallium containing pillared interlayer clays: Preparation, characterization and catalytic properties L7

Catalyst characterization (FT-IR, EXAFS, XPS)
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. VI. Study of the state of components in (Pd + Zr)/SiO_2 51

Catalyst characterization (FT-IR, SEM, XPS, XRD)
Catalytic oxidation of cyclopentadiene over supported vanadium pentoxide–silver catalysts 267

Catalyst characterization (HREM)
High-resolution electron microscopy of spent Ni–Mo/Al_2O_3 hydrotreating catalysts 79

Catalyst characterization (IR, NMR, BET, TG-DTA)
Synthesis and characterization of silica–alumina prepared from tetraalkylammonium hydroxides 145

Catalyst characterization (LRS, XRD)
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403

Catalyst characterization (NMR)
Interaction of vanadia with alumina and titania during ultra-high intensity grinding at room temperature as evidenced from ^{51}V NMR spectra 191

Catalyst characterization (TPD, XPS, XRD, electrical conductivity)
Sulphur-resistant character of titania-supported platinum catalysts 107

Catalyst characterization (XPS, scanning Auger spectroscopy)
Supported Co–Mo thin film sulphide catalysts for hydrodesulphurization. II. Effects of catalyst surface structure on hydrodesulphurization activity 391

Catalyst characterization (XPS)
X-ray photoelectron spectroscopic study of the electronic state of palladium in alkali metal doped Pd/SiO_2 solids 333

Catalyst characterization (XPS)
X-ray photoelectron spectroscopic study of $CuSO_4$–MgO/SiO_2 catalysts for isoprene synthesis 259

Catalyst characterization (XRD, FT-IR)
Catalytic oxidation of toxic organics in aqueous solution L1

Catalyst preparation (calcination, ion exchange, steaming, precipitation)
Synthesis and characterization of silica–alumina prepared from tetraalkylammonium hydroxides 145

Catalyst preparation (deposition, impregnation)
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293

Catalyst preparation (extrusion)
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403

Catalyst preparation (grinding)
Interaction of vanadia with alumina and titania during ultra-high intensity grinding at room temperature as evidenced from ^{51}V NMR spectra 191

Catalyst preparation (incipient wetness, in-situ)
Optimization of the selective semi-hydrogenation of phenylacetylene with supported palladium systems 375

Catalyst preparation (ion exchange, XRD, FT-IR)
Toluene disproportionation reaction over modified HY and LaHY catalysts 91

Catalyst preparation (organometallic compounds)
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37

Catalyst preparation (precipitation, impregnation, grafting)
Titania-modified hydrodesulphurization catalysts. I. Effect of preparation techniques on morphology and properties of TiO_2–Al_2O_3 carrier 305

Catalyst preparation (wet impregnation)
X-ray photoelectron spectroscopic study of $CuSO_4$–MgO/SiO_2 catalysts for isoprene synthesis 259

Cobalt–chromium oxide
Cobalt chromium oxide: A novel sulphur tolerant water–gas shift catalyst L11

Cobalt–molybdenum/alumina
Supported Co–Mo thin film sulphide catalysts for hydrodesulphurization. II. Effects of catalyst surface structure on hydrodesulphurization activity 391

Coke deposition
High-resolution electron microscopy of spent Ni–Mo/Al_2O_3 hydrotreating catalysts 79
Copper sulphate–magnesia/silica
X-ray photoelectron spectroscopic study of $CuSO_4$–MgO/SiO_2 catalysts for isoprene synthesis 259
Copper/zinc oxide/alumina
Copper surface area and activity in CO/H_2/CO_2 of Cu/ZnO/Al_2O_3 methanol synthesis catalysts 165
Cracking catalysts
Recent process- and catalyst-related developments in fluid catalytic cracking – a review 197
Cracking catalysts
Catalytic cracking of naphthenes and naphthenoaromatics in fixed bed micro reactors 345
Cyclopentadiene oxidation
Catalytic oxidation of cyclopentadiene over supported vanadium pentoxide–silver catalysts 267

Deactivation
X-ray photoelectron spectroscopic study of $CuSO_4$–MgO/SiO_2 catalysts for isoprene synthesis 259
Dealumination
Toluene disproportionation reaction over modified HY and LaHY catalysts 91
Decalin cracking
Catalytic cracking of naphthenes and naphthenoaromatics in fixed bed micro reactors 345
Dehydrogenation
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293
Dimethyl ether
Copper surface area and activity in CO/H_2/CO_2 of Cu/ZnO/Al_2O_3 methanol synthesis catalysts 165
Dispersion
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403
Dispersion
Catalytic oxidation of cyclopentadiene over supported vanadium pentoxide–silver catalysts 267
Dispersion
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. VI. Study of the state of components in (Pd + Zr)/SiO_2 51
Dispersion
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37
Dispersion
Titania-modified hydrodesulphurization catalysts. I. Effect of preparation techniques on morphology and properties of TiO_2–Al_2O_3 carrier 305

Ethane hydrogenolysis
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37

Gallium
Gallium containing pillared interlayer clays: Preparation, characterization and catalytic properties L7

Heavy oil
Effect of addition of sulphur and phosphorus on heavy oil hydrotreatment with dispersed molybdenum-based catalysts 279
Heterogeneous acid catalysts
Ortho-selective alkene alkylation of arylamines via acid catalysis 117
Hydrodesulphurization
Titania-modified hydrodesulphurization catalysts. I. Effect of preparation techniques on morphology and properties of TiO_2–Al_2O_3 carrier 305
Hydrodesulphurization
Supported Co–Mo thin film sulphide catalysts for hydrodesulphurization. II. Effects of catalyst surface structure on hydrodesulphurization activity 391
Hydrogen
Copper surface area and activity in CO/H_2/CO_2 of Cu/ZnO/Al_2O_3 methanol synthesis catalysts

165

Hydrogenation
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293

Hydrogenolysis
Selectivity changes in the ring-opening reaction of methylcyclopentane over rhodium catalysts caused by the addition of silver and metal–support interactions 319

Hydrotreating catalysts
Effect of addition of sulphur and phosphorus on heavy oil hydrotreatment with dispersed molybdenum-based catalysts 279

Hydrotreating catalysts
High-resolution electron microscopy of spent $Ni–Mo/Al_2O_3$ hydrotreating catalysts 79

Isoprene synthesis
X-ray photoelectron spectroscopic study of $CuSO_4–MgO/SiO_2$ catalysts for isoprene synthesis 259

Lithium oxide/silica
Effect of carbon tetrachloride as a feedstream additive in the oxidative coupling of methane on alkali oxide/SiO_2 catalysts 129

Mass transfer
Measurement of gas–liquid mass transfer in multi-phase reactors. A Review 1

Metals resistance
Recent process- and catalyst-related developments in fluid catalytic cracking – a review 197

Methacrylic acid
Reaction of propionic acid with methylal over vanadium–silicon–phosphorus oxide 365

Methane oxidative coupling
Oxidative coupling of methane in molten barium hydroxide at 800°C 67

Methane oxidative coupling
Effect of carbon tetrachloride as a feedstream additive in the oxidative coupling of methane on alkali oxide/SiO_2 catalysts 129

Methanol
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181

Methanol synthesis
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37

Methanol synthesis
Copper surface area and activity in $CO/H_2/CO_2$ of $Cu/ZnO/Al_2O_3$ methanol synthesis catalysts 165

Methylal
Reaction of propionic acid with methylal over vanadium–silicon–phosphorus oxide 365

Molten oxides
Oxidative coupling of methane in molten barium hydroxide at 800°C 67

Molybdenum–cobalt
Effect of addition of sulphur and phosphorus on heavy oil hydrotreatment with dispersed molybdenum-based catalysts 279

Montmorillonite
Gallium containing pillared interlayer clays: Preparation, characterization and catalytic properties L7

Montmorillonite
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181

Multi-phase reactors
Measurement of gas–liquid mass transfer in multi-phase reactors. A Review 1

Nickel–molybdenum/alumina
High-resolution electron microscopy of spent $Ni–Mo/Al_2O_3$ hydrotreating catalysts 79

Nitric oxide reduction
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403

Organic pollutants
Catalytic oxidation of toxic organics in aqueous solution L1

Ortho alkylation
Ortho-selective alkene alkylation of arylamines via acid catalysis 117

Palladium/sepiolite
Optimization of the selective semi-hydrogenation of phenylacetylene with supported palladium systems 375
Palladium/silica
X-ray photoelectron spectroscopic study of the electronic state of palladium in alkali metal doped Pd/SiO_2 solids 333
Palladium/silica
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37
Palladium–zirconium/silica
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. VI. Study of the state of components in $(Pd + Zr)/SiO_2$ 51
Phenol oxidation
Catalytic oxidation of toxic organics in aqueous solution L1
Phenylacetylene hydrogenation
Optimization of the selective semi-hydrogenation of phenylacetylene with supported palladium systems 375
Phosphorus
Effect of addition of sulphur and phosphorus on heavy oil hydrotreatment with dispersed molybdenum-based catalysts 279
Pillared clays
Gallium containing pillared interlayer clays: Preparation, characterization and catalytic properties L7
Pillared montmorillonite
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181
Platinum/alumina
Sulphur-resistant character of titania-supported platinum catalysts 107
Platinum/titania
Sulphur-resistant character of titania-supported platinum catalysts 107
Platinum–chromium
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293
Polyvinyl alcohol
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181
Pore plugging
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403
Propionic acid
Reaction of propionic acid with methylal over vanadium–silicon–phosphorus oxide 365

Residual oil
High-resolution electron microscopy of spent $Ni–Mo/Al_2O_3$ hydrotreating catalysts 79
Rhodium
Selectivity changes in the ring-opening reaction of methylcyclopentane over rhodium catalysts caused by the addition of silver and metal–support interactions 319
Ring opening
Selectivity changes in the ring-opening reaction of methylcyclopentane over rhodium catalysts caused by the addition of silver and metal–support interactions 319

Selectivity (aromatic hydrocarbons, alkanes)
Promotion of Pt/Al_2O_3 catalysts with chromium ions and investigation of the changes in their hydrogenating/dehydrogenating activity 293
Selectivity (ethane, ethene)
Oxidative coupling of methane in molten barium hydroxide at 800°C 67
Selectivity (ethane, ethene)
Effect of carbon tetrachloride as a feedstream additive in the oxidative coupling of methane on alkali oxide/SiO_2 catalysts 129
Selectivity (gasoline, octane)
Recent process- and catalyst-related developments in fluid catalytic cracking – a review 197
Selectivity (hexane)
Selectivity changes in the ring-opening reaction of methylcyclopentane over rhodium catalysts caused by the addition of silver and metal–support interactions 319
Selectivity (maleic anhydride, phthalic anhydride)
Catalytic oxidation of cyclopentadiene over supported vanadium pentoxide–silver catalysts

267
Selectivity (methanol)
Copper surface area and activity in $CO/H_2/CO_2$ of $Cu/ZnO/Al_2O_3$ methanol synthesis catalysts 165
Selectivity (methyl metacrylate)
Reaction of propionic acid with methylal over vanadium–silicon–phosphorus oxide 365
Selectivity (ortho-)
Ortho-selective alkene alkylation of arylamines via acid catalysis 117
Silica–alumina
Synthesis and characterization of silica–alumina prepared from tetraalkylammonium hydroxides 145
Silver
Selectivity changes in the ring-opening reaction of methylcyclopentane over rhodium catalysts caused by the addition of silver and metal–support interactions 319
SMSI
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. V. Influence of group IVB ions on adsorption and catalytic properties of Pd/SiO_2 37
SMSI
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. VI. Study of the state of components in $(Pd + Zr)/SiO_2$ 51
Stability
Recent process- and catalyst-related developments in fluid catalytic cracking — a review 197
Stirred vessel reactors
Measurement of gas–liquid mass transfer in multi-phase reactors. A Review 1
Sulphur
Effect of addition of sulphur and phosphorus on heavy oil hydrotreatment with dispersed molybdenum-based catalysts 279
Sulphur poisoning
Cobalt chromium oxide: A novel sulphur tolerant water–gas shift catalyst L11
Sulphur resistance
Sulphur-resistant character of titania-supported platinum catalysts 107
Surface area
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181
Syngas conversion
Cobalt chromium oxide: A novel sulphur tolerant water–gas shift catalyst L11
Syngas conversion
Effects of the interaction of dispersed metal particles with the support in catalysts prepared using organometallic compounds. VI. Study of the state of components in $(Pd + Zr)/SiO_2$ 51

Tetraaklylammonium hydroxides
Synthesis and characterization of silica–alumina prepared from tetraalkylammonium hydroxides 145
Tetralin cracking
Catalytic cracking of naphthenes and naphthenoaromatics in fixed bed micro reactors 345
Thin-film precursor
Supported Co–Mo thin film sulphide catalysts for hydrodesulphurization. II. Effects of catalyst surface structure on hydrodesulphurization activity 391
Titania
Selectivity changes in the ring-opening reaction of methylcyclopentane over rhodium catalysts caused by the addition of silver and metal–support interactions 319
Titania–alumina
Titania-modified hydrodesulphurization catalysts. I. Effect of preparation techniques on morphology and properties of TiO_2–Al_2O_3 carrier 305
Titanium
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403
Toluene alkylation
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181
Toluene disproportionation
Toluene disproportionation reaction over modified HY and LaHY catalysts 91
Upgraded oil
High-resolution electron microscopy of spent $Ni–Mo/Al_2O_3$ hydrotreating catalysts 79

Vanadia–alumina
Interaction of vanadia with alumina and titania during ultra-high intensity grinding at room temperature as evidenced from ^{51}V NMR spectra 191
Vanadia–titania
Interaction of vanadia with alumina and titania during ultra-high intensity grinding at room temperature as evidenced from ^{51}V NMR spectra 191
Vanadium
Study of Ti–V–P–O catalysts for the selective reduction of nitric oxide in the presence of oxygen 403
Vanadium pentoxide–silver/alumina
Catalytic oxidation of cyclopentadiene over supported vanadium pentoxide–silver catalysts 267
Vanadium pentoxide–silver/titania
Catalytic oxidation of cyclopentadiene over supported vanadium pentoxide–silver catalysts 267
Vanadium–silicon–phosphorus
Reaction of propionic acid with methylal over vanadium–silicon–phosphorus oxide 365

Water–gas shift reaction
Cobalt chromium oxide: A novel sulphur tolerant water–gas shift catalyst L11

Xylene
Toluene disproportionation reaction over modified HY and LaHY catalysts 91
Xylene isomers
Thermal and catalytic properties of alumina-pillared montmorillonite prepared in the presence of polyvinyl alcohol 181

Zeolites
Ortho-selective alkene alkylation of arylamines via acid catalysis 117
Zeolites
Toluene disproportionation reaction over modified HY and LaHY catalysts 91
Zeolites
Catalytic cracking of naphthenes and naphthenoaromatics in fixed bed micro reactors 345
